With Nutrafol, Targeted and Proven Solutions to Combat Thinning Hair

by Christopher DiLoreo
 EDGE Media Network Content Editor
 Tuesday June 21, 2022

PRINT EMAIL

Stephen McGee (Source: Nutrafol)

We recently talked to Dr. Shino Bay Aguilera, a Florida-based board certified dermatologist with extensive experience in the realm of aesthetics. The topic of conversation was something that's on the minds of millions of men around the world: thinning hair. There's no magic wand, of course, but Dr. Bay pointed to one thing that he's been both recommending to patients and using himself: Nutrafol.

Nutrafol makes a natural line of hair health products that target the myriad of root causes of thinning hair. Well-researched and much-adored, Nutrafol succeeds by addressing the underlying factors that can affect the health of your hair like hormones, stress, lifestyle, metabolism, nutrition, and aging. While Dr. Bay recommends Nutrafol because it is 100% drug free, natural, and doesn't impact sex drive, it also earns his endorsement for Nutrafol's clinical studies and research-based approach, which make the brand stand out in the crowded industry.

SmileDirectClub: How to Achieve and Maintain the Perfect Smile

Thursday, Oct 28, 2021

PRINT EMAIL COMMENTARIES (0)

SmileDirectClub is revolutionizing the way people achieve confident smiles. As founders Alex and Dan Kaplan met and summer camp at a time when most only utilized traditional orthodontics as a means of care, the founders have changed.

SmileDirectClub's innovative, technologically advanced, and easy-to-use system of invisible aligners has already become an industry game-changer. It's a sign of growing awareness and interest towards holistic dental health.

EDGE contacted SmileDirectClub experts to explore the steps to achieve optimal results as well as the range of benefits of aligned teeth above and beyond a beautiful smile.

4 Steps to Stay on Track with SmileDirectClub

1. Take up your preparation. Wear your aligners all day and night, except when eating, drinking, anything other than cool water, and brushing/flossing.
2. Maintain good oral hygiene by brushing after meals and snacks, flossing, and - if you're visiting your aligners first in your mouth after your hygiene is complete. Following some of the [SmileDirectClub](#) tips described below will help too.
3. Always clean your aligners by rinsing with cool water. Hot water can warp them.
4. Don't have been without your pack, even on short overnight trips. Smiling is contagious and so are smiles. But don't you know that?

Reimagining Healthcare From Home: Lemonaid

By Christopher DiLoreo
 EDGE Media Network Content Editor
 Tuesday June 21, 2022

PRINT EMAIL COMMENTARIES (0)

It's a 100% drug-free, 100% natural, 100% effective, and 100% delivered to your door. It's the only ED medication that's been clinically proven to be safe and effective. It's the only ED medication that's been clinically proven to be safe and effective. It's the only ED medication that's been clinically proven to be safe and effective.

As of October 20, the U.S. has an epidemic with a daily coronavirus infection rate rising over 100,000. But even though we're in the pandemic of the century, people still need basic healthcare services. And one thing that everyone expects is to be able to get it from their phone. Lemonaid has been established itself as an industry leader with an intuitive website and app, simplifying giving their doctors' experience with Lemonaid in less than 30 minutes.

The U.S. is ongoing struggle with affordable healthcare as one of the most complex issues of the recent election. And regardless of the outcome, nothing in Washington gets done quickly. But that's not a reason to give up. The [number one](#) app in the U.S. is 24-hour. Many of our patients complete their whole experience with Lemonaid in less than 30 minutes.

Lemonaid's need to succeed has been paired with the right team of a doctor, staff of doctors, home practitioners, pharmacists, clinic experts, and a behind-the-scenes technology team that began their patients' journey. Nothing can match the emotional effect among others, each with different regulatory processes, has been an arduous process.
