Pink Media – Summary of our LGBTQ+ Marketing Services

Our primary LGBTQ+ marketing services fall into the following prioritization and workflow, designed to keep your content working for you 24/7, 365 days per year!

Are you a PR specialist? We help turn PR into a marketing channel for you.

We focus on getting our client's message in front of their specific, targeted LGBTQ+ demographic online. We start with our client's "story to tell", whether that's video, photos or a blog post, and we put that content to work via social media, mobile apps, email, banner ads, connected TV and more.

RESTAURANTS WHERE YOU CAN BE YOUR FULL Q/L SEATTLE, WA

September 21, 2018
Travel

Seattle is one of the most progressive cities in the nation when it comes to LGBTQ+ visibility. The city is home to the first-ever LGBTQ+ scholarship fund, the nation's largest LGBTQ+ chamber of commerce, and a significant number of LGBTQ+-owned and -operated businesses, bars, restaurants, and experiences.

Travel Out Seattle, a program of GSBA, helped us pick some of the best LGBTQ+-owned and -operating bars, restaurants, and destinations in the Seattle where you can be your full queer self.

A la Mode Pies

Picture this: savory and sweet pies, morning quiche, hand pies, pies by the slice, coffee, ice cream, beer, wine, and mushrooms, all in a beautifully designed, award-winning cafe space... that's A la Mode Pies. LGBTQ+-founded, owned, and operated. With two Seattle cafe locations in Phinney Ridge and West Seattle, A la Mode Pies is an easy stop on your route to or from the Woodland Park Zoo or Alki Beach. Answer menu questions and submit your order request. A la Mode

Pink Media Capabilities

Having been at the forefront of the LGBTQ+ online business world since its inception in 1995, our team has evolved over the years with how we approach our core competency – helping companies reach the LGBTQ+ community online, wherever they may be. Having created early on one of the largest LGBTQ+ websites worldwide, we started with banner ads and e-mail campaigns and have evolved over the years to taking a wider, 360° approach to creating campaigns which connect with the LGBTQ+ Community on websites, social media, mobile phones, tablets and more.

Where we are at today is in helping companies build strategies, as well as design and place advertising, across the entire spectrum of LGBTQ+ media, ranging from some of the largest LGBTQ+ websites online to Facebook groups, Threads, Instagram, LinkedIn and more.

Our capabilities include:

Relationships: We've been very active in the LGBTQ+ business community, having both attended LGBTQ+ conferences over the past 25+ years, as well as served on various boards of LGBTQ+ non-profits, including IGLTA, Travel Gay Canada, the Los Angeles Gay & Lesbian Chamber of Commerce and more. We're currently very active with the NGLCC, Lambda Legal, Community Marketing, the Greater Seattle Business Association (GSBA) and various local LGBTQ+ business groups in the New York and Los Angeles area. It's this wide network of long-standing LGBTQ+ business relationships that we're able to put to work for you.

Our external capabilities that are part of our wider LGBTQ+ agency partner group include:

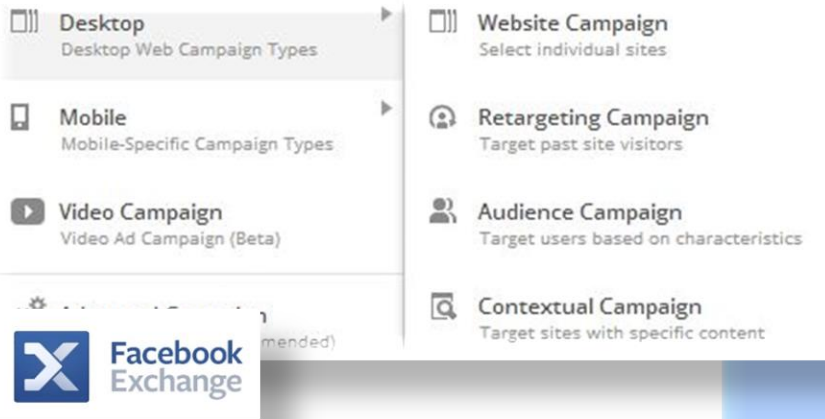

- Creative and Graphic Design
- Event Management
- Video Production
- LGBTQ+ Market Research

LGBTQ+ Media Buying: we currently purchase most of our clients' advertising using **Programmatic Ad Buying** and **Real-Time Ad Bidding (RTB)**, tapping into the wide inventory of banner advertising opportunities available to us in **Demand-Side Platform (DSP)** ad buying. We're able to target specific demographics (travelers, sports fans, moviegoers) in specific regions worldwide, with the capability of targeting LGBTQ+ consumers in specific neighborhoods via **Hyper-Local mobile targeting**. The ad inventory we have access to includes the **Gay Ad Network**, **InstinctMagazine.com**, **Pride Media (Advocate.com, Out.com, etc.)**, **Towleroad.com**, **Queerty/GayCities.com**, **Grindr**, **Scruff** and **Hornet**, just to name a few. We also have **first-party LGBTQ+ data** via programmatic ad buying. This allows us to reach this LGBTQ+ audience wherever they may be on the Internet (*now including Facebook Ad Exchange*), with the added capability of reaching your specific target demographic.

VIDEO: Do you have video ready to go? If so, we can get it seen by an LGBTQ+ audience online. If not, let us help you create amazing video content for a wide variety of formats!

First, we start with the creation of your video content. We have the option of working with some first-class video producers and editors, as well as influencers and content creators, who can all create their own unique voice for you in video.

Second, we then focus on the various platforms this video will be distributed on, including:

- **Revry** and other **Connected TV** video streaming platforms
- **Influencer/content creator's social media reach** on YouTube, Instagram, Twitter and Facebook
- **Our social media platforms** with 2-minute versions on Instagram, Twitter and Facebook
- **Your YouTube channel**, with the video in longer format
- **:15 and :30 second** format for pre-roll, mid-roll and post-roll video advertising online

All platforms have a mobile, desktop and social media component to ensure your videos are viewed on as many devices as possible.

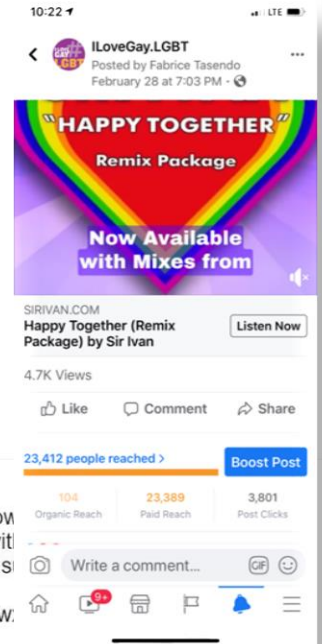

Note: *Connected TV has full video views before users can continue to watch programming, but no click-throughs. The benefit is that your video is seen, but the downside is that the call-to-action must be embedded in the video. Pre-roll, mid-roll and post-roll video advertising all have click-throughs, but users can choose to watch 25, 50 and 75% of video as well and then skip to programming. The benefit is that you have a strong call-to-action for a user to follow up for more information. The downside is that they may not watch your full video.*

Pre-Roll Video Advertising: typically 15-30 seconds long, which is positioned to play as part of, but in advance of, a video that has been matched to our client's message based on the video's LGBTQ+ content. Pre-Roll Video Advertising allows for measured video views and click-throughs.

MEASUREMENT: The opportunity to measure the results and performance of a campaign will vary for each client, depending on the priority as to what is most important to measure. For some, performance will be based on increased product or service sales. For others, performance will be based on increased traffic to the website or perhaps increased brand recognition as measured either through formal focus groups or informally through peers in your particular line of business. Some proven methods of tracking performance of social network marketing include:

1. **Increased traffic to your website**, as measured by both the current visitor traffic when this campaign began (set as your basis), along with measurement of where a visitor came from when arriving at your site (i.e., measurement from your new blog, Facebook Fan Page, Twitter page, etc.)
2. **Increased product or retail sales**, as measured by current retail sales when this campaign began (i.e., if you were at \$500 per month on average and with this campaign alone, retail sales grew to \$1,000 per month, this would be one form of our measurement of success).
3. **Number of members** in your Facebook Fan Page (*Facebook offers a wide array of key metrics for your page, including Global Ranking statistics, information on who is sharing your posts and how wide your social media reach is, just to name a few*).
4. **Number of followers** to your Twitter account
5. **Blog traffic**, as measured by Google Analytics
6. **Search Engine Placement**, as measured by your current Google ranking for perhaps 5 specific search terms related to your company and how that Google ranking and search results placement improves over a 30-day period.

Banner Ads, Mobile Apps, E-Mail Campaigns, Social Media - Hyper-Targeted Advertising: Offering highly targeted advertising to reach your company's LGBTQ+ demographic. In the following example shown below, this targeting selects individuals living in the New York City area, 18-65+, who have shown an interest in Barcelona, Madrid, Ibiza or just Spain in general, AND show an interest in LGBTQ+ travel. Layering these interest data sets together allows us to target gays men and/or lesbian women who would like to travel to Spain. This type of targeting allows us to focus on your key demographic like never before.

Costs starting at \$500, with typical budget range of \$1,500 - \$7,500 per month

Who Are We?

President: Matthew Skallerud

Currently heading up our new New York City office

Matt Skallerud began his online career in May 1995 with the launch of GayWired.com, which became one of the top 3 LGBTQ+ websites worldwide. Having worked with companies, large and small, for more than 20 years to reach the LGBTQ+ online consumer through this site and others, he is now focused on the most cutting-edge global innovations in programmatic ad buying, social networking and Web 2.0 technologies. He empowers his clients to reach the LGBTQ+ market using the most advanced techniques taking hold in the online marketing world today, including Real-Time Ad Bidding (RTB) Facebook, LinkedIn, Twitter, Google Plus, YouTube, blogs and others.

Executive Vice President: Fabrice Tasendo

Heading up our Los Angeles office

Fabrice is an activist, an educator, a marketer and he always feels rewarded anytime he can positively impact social change. Prior to 2011, Fabrice worked as SVP of Digital Strategies for Here Media where he oversaw Advocate.com, Out.com, OutTraveler.com and their respective editorial and sales initiatives. Fabrice has been in the online market since 1995 when he co-founded GayWired.com, a portal that became an online leader and was referenced by the Wall Street Journal as the 'best garage start-up.'
